SIMPLA

Addressing rationalization in energy and mobility planning

What is SIMPLA's purpose and scope of action?

SIMPLA does not provide a methodology to

- produce a SEAP/SECAP or parts of it
- produce a SUMP or parts of it
- produce a new integrated strategic plan replacing the aforementioned

SIMPLA

Addressing rationalization in energy and mobility planning

Instead, SIMPLA provides a methodology addressed to

- optimize and rationalize the production of strategic energy and mobility plans
- actively searching for synergies and economies of scale
- through a project-management process
- resulting in two independent, harmonized plans
